The film genre is: Drama, Action, Love, and Compassion, Tolerance, and Understanding that NO RELIGION allows or condones hatred or violence, especially Islam does not allow or condone it at all, and that these things are a side effect of misunderstandings created mainly due to complex geopolitical reasons that have NOTHING to do with any religions of any type, especially Islam, which is a religion of peace and tolerance, love, and understanding. THIS is a message that must be told, and the stereotype must be shattered, and behind it, we will all see the truth that we are all the same, regardless of our beliefs or religions, and we must never confuse geopolitics with religions, as they are very different from each other, and no one should hate or fear any of them.
